

ONLINE COURSE ANALYTICS DASHBOARD

Power BI Data Analysis Project

 **Online Course Dataset**

Project Objective

- Course Performance
- Viewer Engagement
- Language Preferences
- Instructor Ratings
- Course Duration

Tools Used

- ✓ Power BI
- ✓ Power Query
- ✓ DAX
- ✓ Data Cleaning

Prepared By :Kashyap Choudhary

B .Tech (CSE)

Q1. How many courses are available in the catalog ?

8K

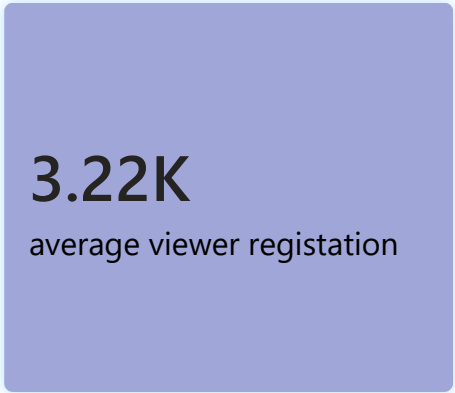

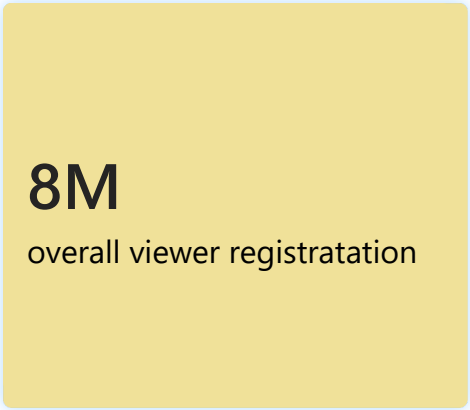

Total number of course ID (after
cleaning)

Q2. What is the average course rating (After Cleaning data)?

4.70

average rating (after cleaning)

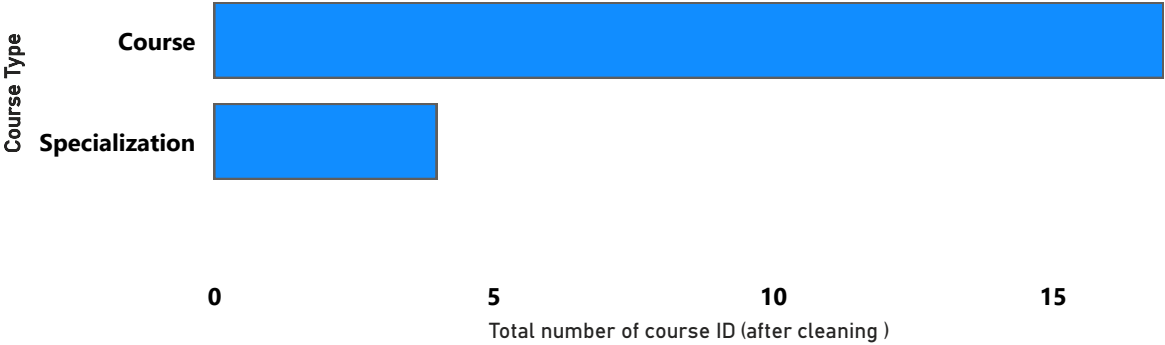

Q.3 What are the total and average course views?

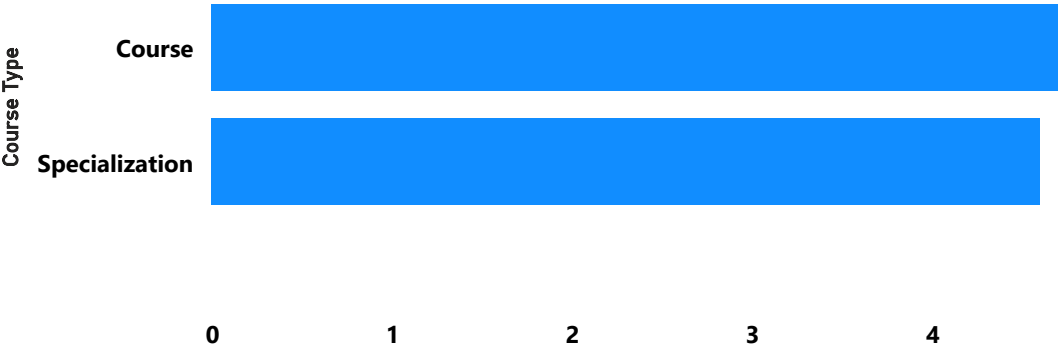

Q.4 How are course types distributed across categories and sub-categories ?

Category					
(Blank)	Business	Data Science	Information Technology	Math and Logic	Physical Science and ...
Arts and Humanities	Computer Science	Health	Language Learning	Personal Development	Social Sciences

total viewers by Course Type

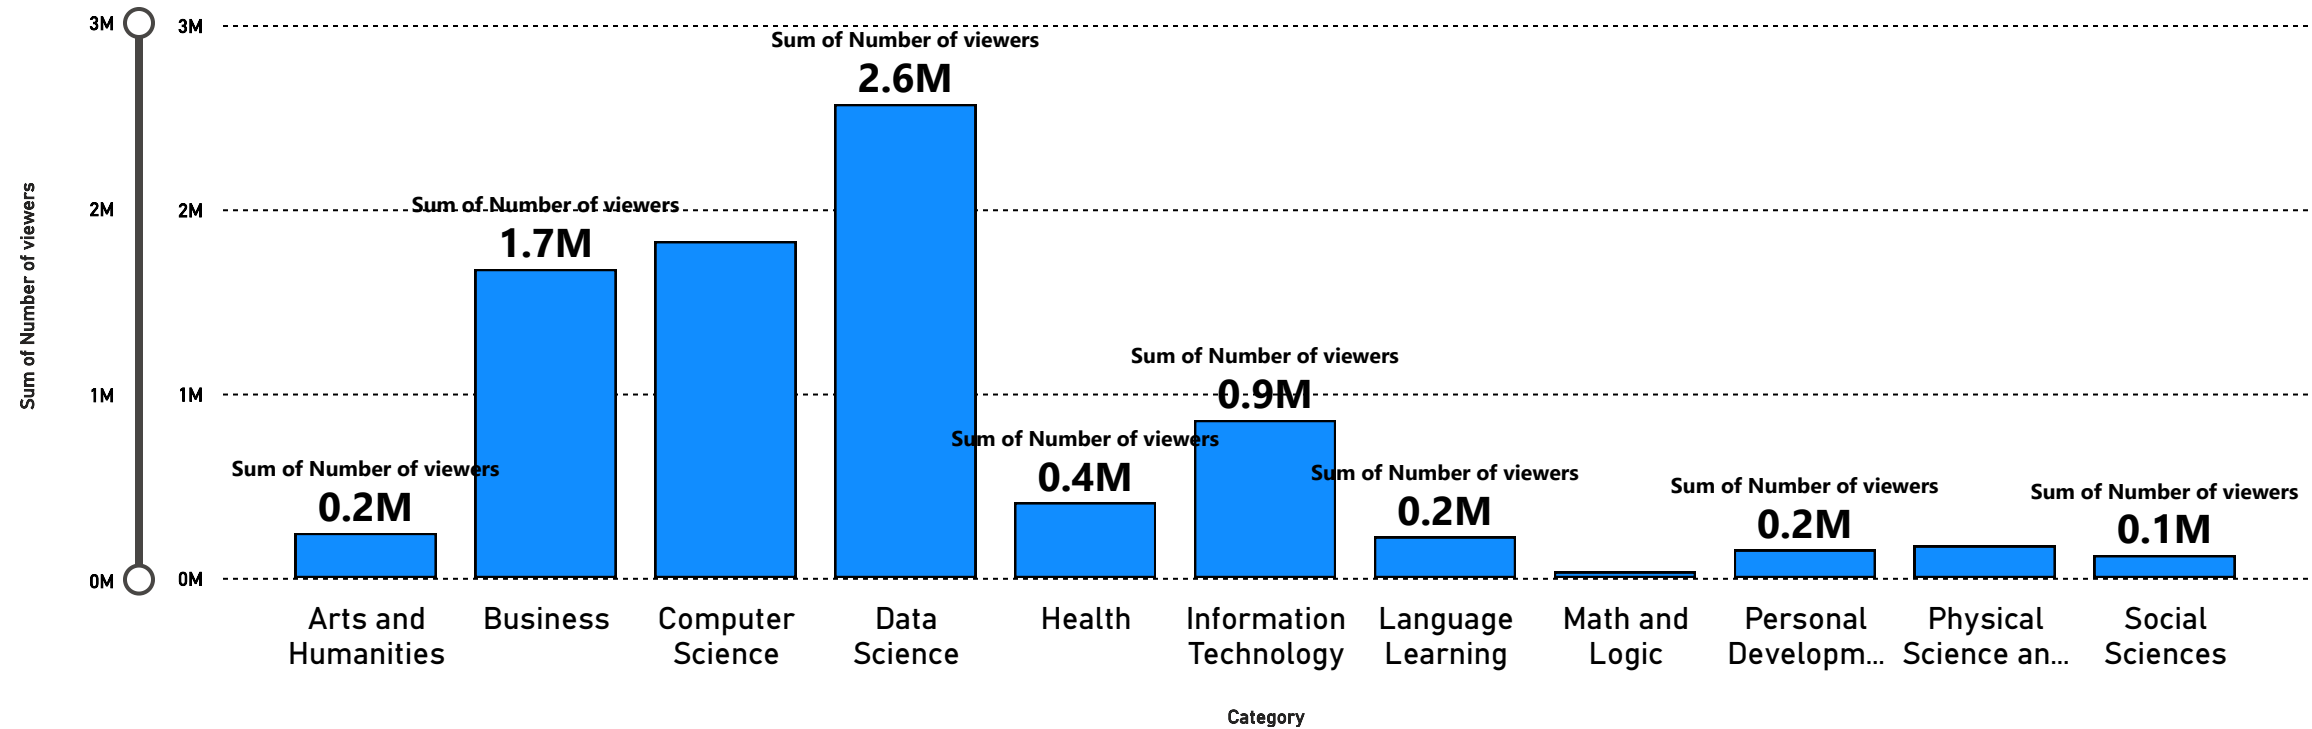

Average Number of viewers by Course Type

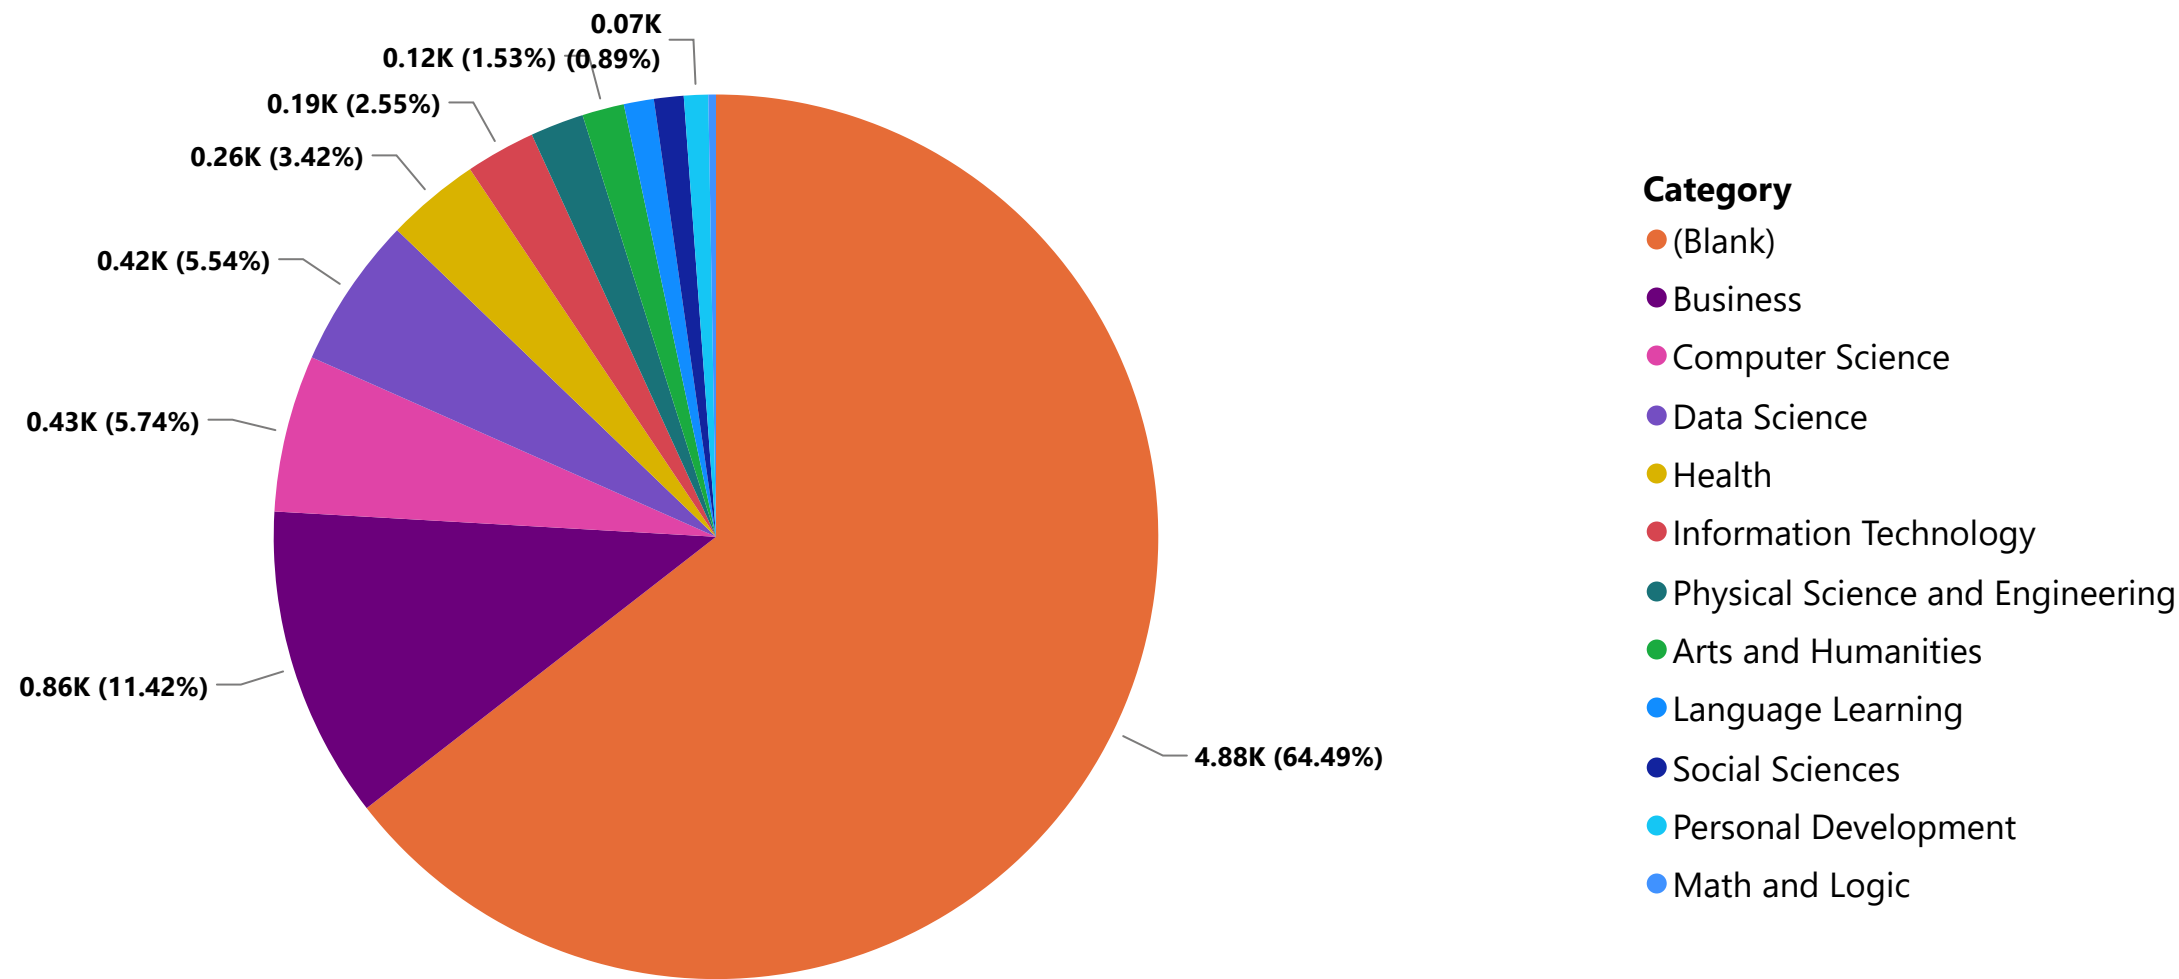

Q.5 What are the average views by category, sub-category, and language?

Category					
(Blank)	Business	Data Science	Information Technology	Math and Logic	Physical Science and Engineering
Arts and Humanities	Computer Science	Health	Language Learning	Personal Development	Social Sciences

Sum of Number of viewers by Category

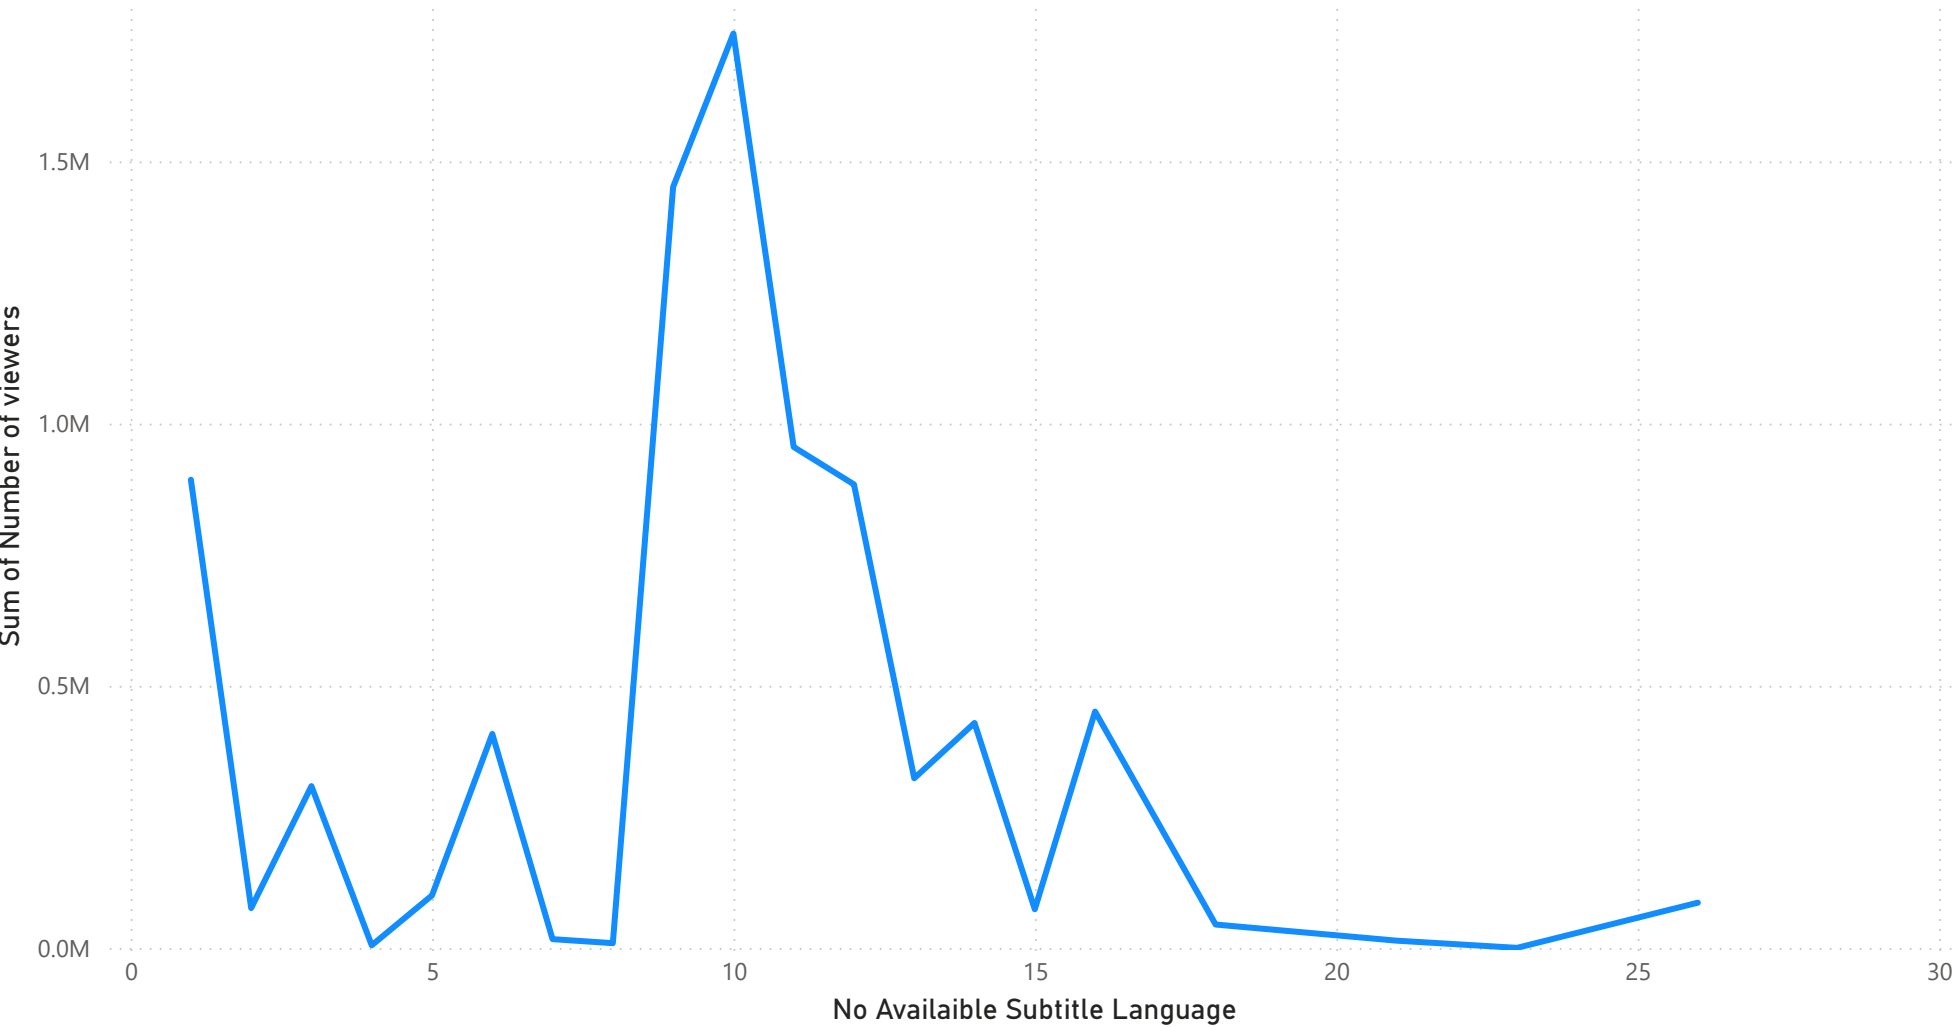

Q6. What is the distribution of courses across different languages?

Q7. What are the preferred languages in the top 5 categories by views?

Category	Average of Number of viewers	Ranking
⊕ Physical Science and Engineering	1219.91	
⊕ Math and Logic	1538.05	
⊕ Social Sciences	1552.05	
⊕ Health	1659.54	
⊕ Business	2019.89	
⊕ Arts and Humanities	2088.66	
⊕ Language Learning	2678.83	5
⊕ Personal Development	3220.66	4
⊕ Computer Science	4408.91	3
⊕ Information Technology	4671.82	2
⊕ Data Science	6282.43	1
Total	3222.38	4

Q.8 How do subtitles impact course views?

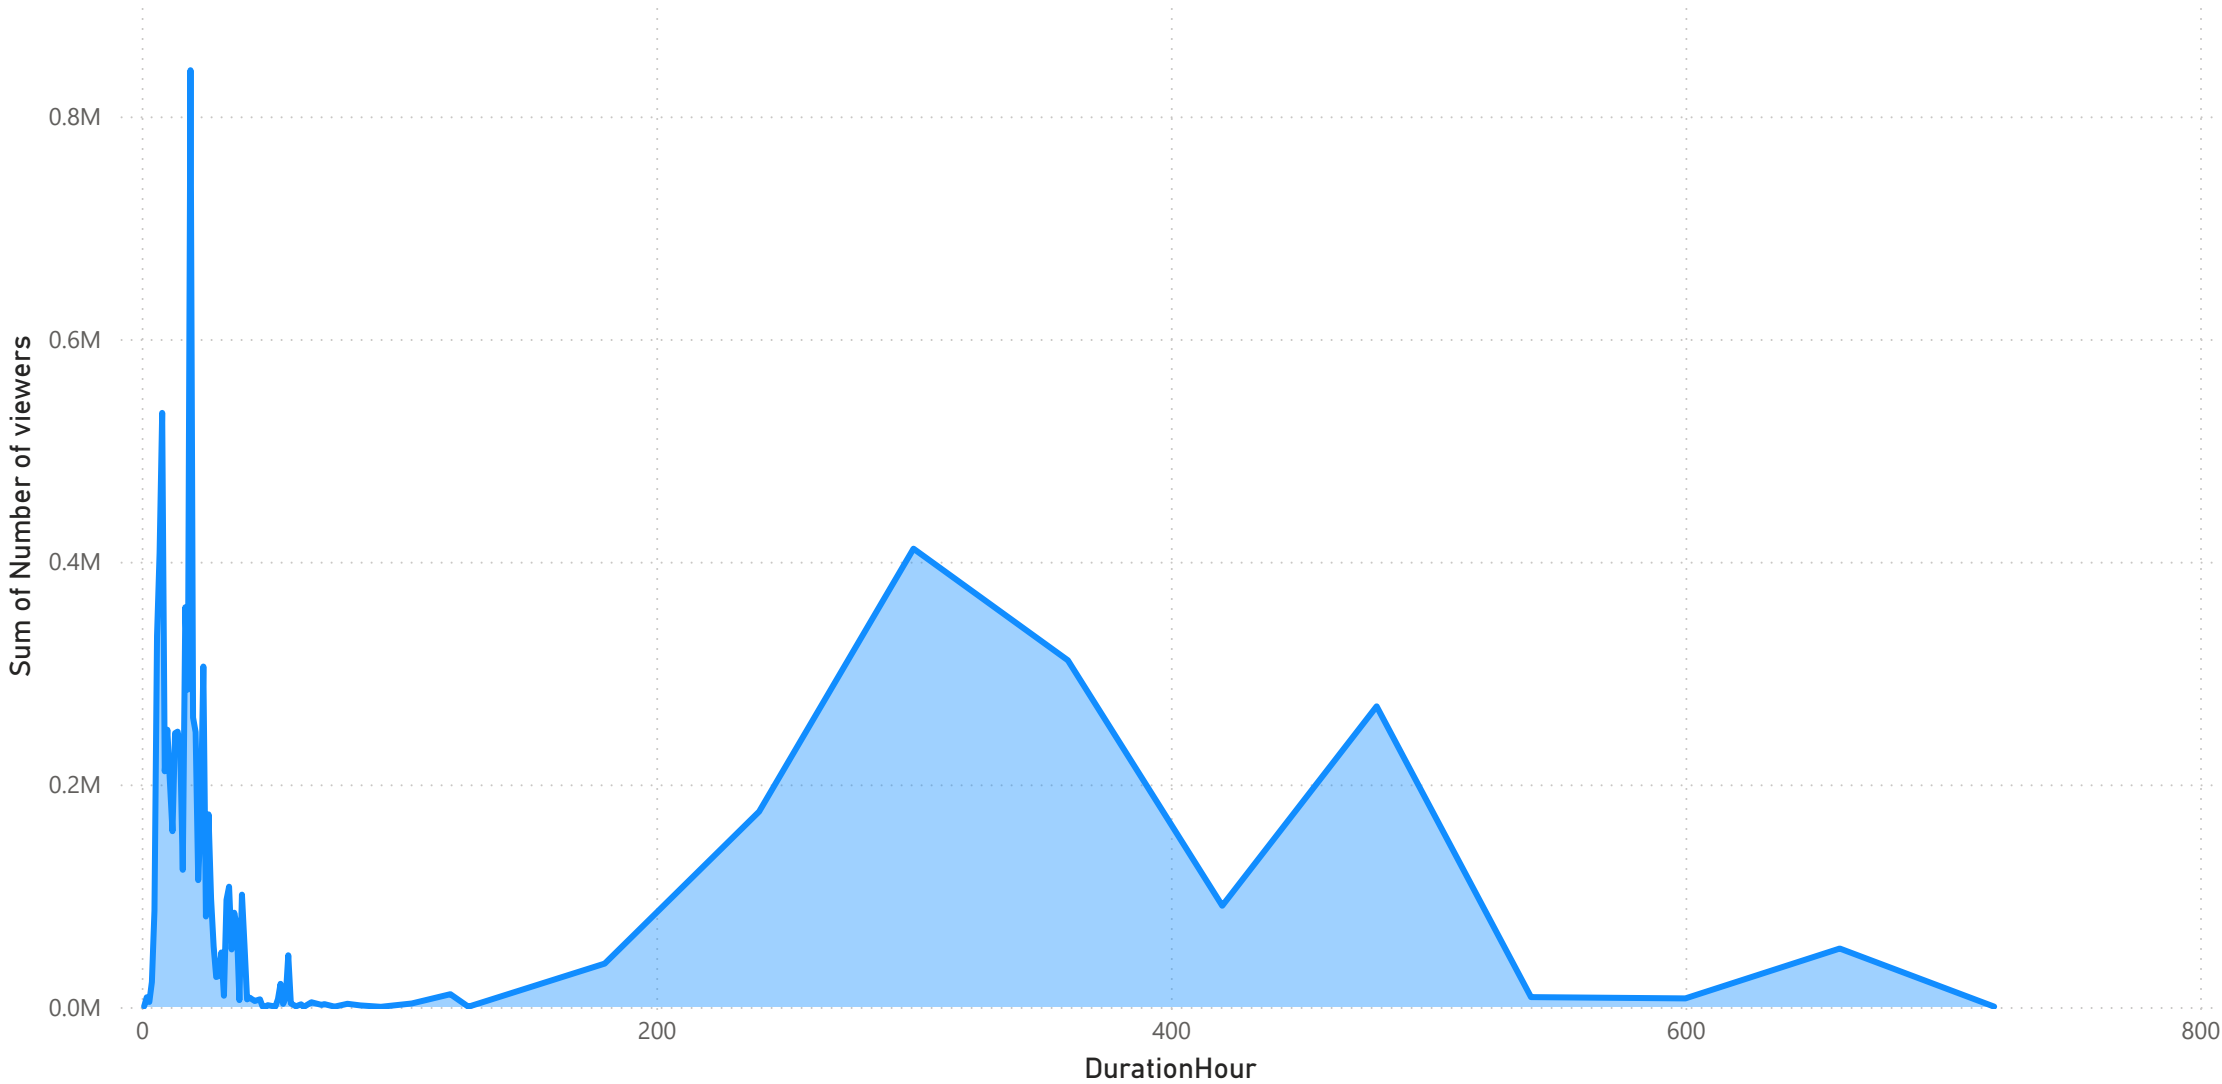

Q.9 **Who are the top 3 instructors by rating in each category and sub-category?**

Category	Rank
+ Business	
+ Computer Science	
+ Data Science	
+ Health	
+ Personal Development	
+ Social Sciences	
Total	

Q.10 How does course duration affect views across categories and sub-categories?

Sum of Number of viewers by DurationHour

This dashboard provides valuable insights into online course performance and learner engagement.

Key Findings:

- This dashboard analyzes online course performance, viewer engagement, language preferences, instructor ratings, and course duration.
- The average course rating is 4.70.
- Viewer engagement varies across categories and course types.
- Language preference differs across categories.
- Courses with subtitles tend to reach a wider audience.
- Top-rated instructors consistently receive higher learner ratings.
- Course duration influences viewer engagement and learning preferences.

Business Recommendation:

Focus on high-demand categories, collaborate with top-rated instructors, provide multilingual subtitles, and optimize course duration to improve learner engagement and business growth.
